Write a React component with a controlled form to enter student name and marks; on submit, display Pass or Fail based on marks and show the entered details below the form.

App.jsx:

```
import React, { useState } from "react";  
import "./App.css";
```

```
function App() {  
  const [name, setName] = useState("");  
  const [marks, setMarks] = useState("");  
  const [result, setResult] = useState("");
```

```
  function submitForm(e) {  
    e.preventDefault();
```

```
    if (marks >= 40) {  
      setResult("Pass");  
    } else {  
      setResult("Fail");  
    }  
  }  
}
```

```
  return (
```

```
